WORK EXPERIENCE

Zeepay Ghana Limited – Accra, Ghana
Technology Analyst (Software Engineer)

November 2022 – Present

- Implemented payment integrations for mobile money services and remittance transactions (payouts and debits) across Zeepay platforms.
- Provided comprehensive technical support for internal teams and external partners, ensuring smooth payment operations.
- Developed and upgraded features and services on Zeepay remittance and payment platforms.
- Worked in a development team to build Zeepay's mobile application, facilitating remittances, bill payments, and money transfers between the UK, Ghana, Barbados, and Zambia.

SendStack.Africa – Lagos, Nigeria

July 2021 – August 2021

Data Analyst Intern

- Analyzing customer data to identify patterns or opportunities for improvement.
- Reviewing data for accuracy and ensuring that it is presented in a clear and concise manner.

CO-CURRICULAR ACTIVITIES AND PROJECTS

ALX AFRICA
SOFTWARE ENGINEERING

APRIL 2023 – JUNE 2024

- Completed a 12-month software engineering course with ALX, gaining practical experience through hands-on projects.
- Developed a strong foundation in software engineering by mastering coding languages, technical skills, and problem-solving approaches.

BANK OF GHANA ECEDI HACKATHON
TEAM AUTOCEDI

NOVEMBER 2023 – DECEMBER 2023

- Participated in a hackathon focused on automating payments to streamline financial processes.
- Utilized JavaScript and React.js to develop a faster, automated payment solution

Play and Learn Foundation – Accra, Ghana
2023 Tech Volunteer

JANUARY 2022 – JUNE

- Led a tech team to teach a total of 5 underserved children computer and basic coding skills.
- Volunteered in a mobile library program where we help underserved children with their reading skills.
